## Prayer Notes

### May 2026

As part of the discussions concerning the land at the warehouse we need to obtain an up-to-date definition of the dimensions of the our land, including the additional ‘no-mans-land’ that we acquired when the land was purchased. There is an official procedure for mapping land ownership and occupancy which can be undertaken by the county surveyor but this is currently likely to take more than a year. An alternative is to employ an independent registered surveyor but there would be cost implications.

We have continued to receive short-dated food and other items from two local supermarkets. During April the shelf value of the food that we received amounted to the equivalent of some £9,500. This food has to be distributed and the donations documented within 24 hours, which keeps our team busy. One member of the AN team is occupied full-time with dealing with those who come to the office and maintaining the necessary records; he is assisted on a part-time basis by another team member and a local volunteer who make up the donations from the available stocks.

#### Give thanks ...

1. for the goods and food which allow us to continue to help the needy.

#### Please pray ...

1. for decisions concerning the land at the warehouse

The new planting season at the warehouse and Casa Neemia.

## Prayer Notes

### May 2026

RoAF is essentially a faith-based organisation that relies on prayer. Below and overleaf we offer some prayer pointers, but please feel free to add your own items as they come to mind. Prayer is our connection with God’s ultimate power source and, without prayer support, this work would achieve nothing of lasting value.

Despite demands elsewhere we have continued to receive an ample supply of clothing, footwear and household items. Inspecting and packing these items before dispatch keeps our small but loyal team busy and there are many people in Romania who are grateful for their efforts.

The Romanian government has recently acknowledged an inflation rate of some 9.8%. This contravenes the fiscal rules that link the Romanian currency to the Euro and consequently the exchange rate has risen in an unprecedented way. This has had an adverse impact on prices of food (much of which is imported) and makes life more difficult for many people. It also tends to increase the amount of food that remains unsold.

#### Give thanks ...

1. for incoming donations and the team who prepare them for dispatch.

#### Please pray ...

1. about potential changes in legislation which may affect our activities.

Preparing donations: plenty to do, a loyal team, at the weigh-in.
